

Upon information and belief, the Catholic Church wants me to instruct Catholics in the United States about the arguments for God's existence. My correspondence with the Catholic Church is here: <http://www.newevangelist.me>

I submitted this paper to the Review of Metaphysics and got the response that follows:

[https://www.academia.edu/23340072/WHY\\_PEOPLE\\_BELIEVE\\_GOD\\_CAUSED\\_THE\\_BIG\\_BANG](https://www.academia.edu/23340072/WHY_PEOPLE_BELIEVE_GOD_CAUSED_THE_BIG_BANG)

Dear Dr. Roemer,

Thank you for the opportunity to read your essay, "Why People Believe God Caused the Big Bang." It is well crafted and I am sure would command an appreciative audience. Unfortunately, given its present commitments, the Review is not in a position to accept it.

Sincerely yours,

John C. McCarthy, Editor

The attached document is an offer to give a developmental lesson on the Shroud of Turin, evolutionary biology, and arguments for God's existence.

Very truly yours,

David Roemer
