Dear Ms. Beitler,

About two weeks ago, I began a discussion titled "Senator Acknowledges My Complaint Against the American Journal of Physics" on the Science Writers LinkedIn group which you are the owner of. The body of my discussion was the content of a letter I sent to John Sassaman, who is the chief counsel for the Senate Ethics Committee.

My latest comment told about my exchanges with Daniel Styer, who wrote the article, as well as Randy Isaac and Robert Kaita, who are both PhDs in physics. This comment made it very clear to anyone why the AJP article is absurd and should be retracted.

When I

Re: Ethics Complaint Against Sen. Gillibrand faxed to your office on April 7 and May 16, 19, and 21.

Dear Mr. Sassaman,

In the accompanying fax, Sen. Gillibrand states she reviewed the material I submitted about "Entropy and evolution," (*American Journal of Physics*, November 2008). In fact, her staff refused my request to explain the matter to them in person. In a nutshell, I am accusing the American scientific establishment of engaging in pseudoscience to promote atheism. The article undermines the integrity of science, exacerbates the controversy about the teaching of evolution, and interferes with our relationships with other nations. There is no way her staff could have investigated such an allegation without interviewing me.

Sen. Gillibrand also suggests that I contact Congressman Yvette Clarke (D-NY, 9th district). Congressman Clarke has already agreed to investigate my complaint against the *American Journal of Physics* and the National Science Foundation. My correspondence with Congressman Clarke and Congressman Rush Holt (D- NJ, 12th district) is on my blog (<http://newevangelist.me/2013/04/12/national-science-foundation/>). Congressman Holt has a Ph.D. in physics from New York University.

I asked Sen. Gillibrand for help in my request to see Under Secretary of State for Arms Control and International Security (Rose Gottemoeller) and the Secretary of Homeland Security (Jeh Johnson) about the negative impact the absurd article might have on American security and

foreign relations. I was told that the Under Secretary was considering my request for an appointment. I have not gotten any response from Mr. Johnson. (See: <http://newevangelist.me/2014/05/01/letter-to-secretary-of-homeland-security/>).

I suggest reading *Evolution Revolution: Evolution is True. Darwin is Wrong. This Changes Everything* by Alan Bennett. This book exposes the anti-religion cult of Darwinism that many mainstream evolutionary biologists either follow or are browbeaten into following.

Very truly yours,

David Roemer
