I filed canonical charges against Cardinal Dolan for suppressing my slideshow lecture about the Shroud of Turin (<http://www.dkroemer.com>). In my cover letter to the Holy Father, I mentioned another matter that does not reflect well on the Catholic Church (<http://www.pseudoscience123.com>).

I discovered a short while ago another scandal concerning the Magis Center for Faith and Reason. I think this organization is guilty of heresy because it promotes the argument for God's existence based on the Big Bang and the fine-tuning of physical constants. Since the Catholic Church teaches we know God exists by reason, touting patently absurd arguments seems like something the Devil would do. I explain this more fully at <http://ezinearticles.com/?Fallacious-Arguments-That-God-Exists&id=9065995>

I asked Archbishop Charles Chaput for a meeting to discuss my concerns, but he refused. My correspondence with the Magis Center and Archbishop Chaput is here:
