Dear Dr. Holder,

You most certainly are involved in "editorial decisions" made by the *Theology of Science* because of the mutual affiliation between The Center for Theology and the Natural Sciences and the Graduate Theological Union. Also, the editors, Ted Peters and Robert Russell, taking responsibility for not publishing "An Analogy Between Nazi Germany and the United States" are on your faculty.

The sleazy behavior of Peters and Russell is of a piece with the behavior of another member of the CTNS Board of Directors, Francisco Ayala. His book, *Darwin's Gift to Science and Religion*, promotes typical atheistic misinformation (see: <http://www.newevangelization.info/ayala-darwin-religion/ayala.html>). Darwin contributed nothing to evolutionary biology. He was an advocate of eugenics, and promoted atheism because God-fearing people were against compulsory sterilization and racism (see *Evolution Revolution: Evolution Is True. Darwin Is Wrong. This Changes Everything* by Allan Bennett).

Very truly yours,

David Roemer
